Katie,

FYI, plan for San Jacinto hurricane response.

Regards,

Gary Miller

**Subject:** Tropical Storm Harvey

Gary – As we discussed yesterday, we are keeping a close eye on Tropical Storm Harvey as it approaches the coast of Texas. We intend to perform drive-by inspections of the San Jacinto TCRA Site as weather and road conditions allow us to safely do that, and will also perform a visual inspection of the Site when conditions allow us to safely do that following the storm.

If the river flow reaches a 25-year storm, defined as >202,000 cubic feet/second in the OMM plan, we have notified Hydrographic Consultants that a complete survey of the site will be required when conditions allow that type of work to be safely performed.

I have also notified USA Environment to be on standby in case maintenance of the armored cap is required. I will keep you apprised when any inspection work is planned or completed. Please don't hesitate to contact me if you have any concerns.

Thank you,  
David
